

SaaS Revenue Intelligence | MRR, Retention & Billing Controls

Synthetic data from a seeded generator. Not real company, customer or financial results.

Built by src/excel/build_workbook.py from the tested dbt marts. No macros. Shaded cells on Scenario Inputs are the only editable cells.

Control item	Value
Refreshed (UTC)	2026-09-19 20:07
Source commit	a13e601c1309
Run ID (hash of exports)	73d30c5e8e7b
Data window	2023-01 to 2025-12
MRR bridge breaks	0
Opening balance breaks	0
Billing reconciliation breaks	0
Reconciliation status	ALL CHECKS PASS
Latest closing MRR	1,914,752.62
Latest net revenue retention	85.3%
Latest gross revenue retention	84.5%
Total invoiced	40,862,284.26
Total failed-payment exposure	1,461,681.54
Finance exceptions queued	969
Caveat	December 2025 churn is concentrated on the last day of the data window; treat it as a data-dating question.
